

ARASAVALLI SAI DURGA TARUN

Tadepalligudem, Andhra Pradesh — +91 6281140729 — tarunsaiarasavalli@gmail.com

LinkedIn — GitHub — LeetCode

Objective

Motivated **Computer Science undergraduate** seeking an **entry-level Software Developer** role. Strong foundation in **Java, Spring Boot, SQL, and Data Structures & Algorithms** with hands-on experience in developing web applications. Eager to learn new technologies, improve my technical skills, and contribute effectively to a software development team while continuously enhancing my problem-solving and software development skills.

Education

B.Tech in Computer Science and Engineering, SRKR Engineering College 2023 – Present
CGPA: **8.45/10**

Intermediate (MPC), Sasi Junior College 2021 – 2023
Percentage: **95.7%**

Technical Skills

- **Languages:** Java, SQL
- **Backend:** Spring, Spring Boot, REST APIs
- **Frontend:** React, HTML, CSS, JavaScript
- **Database:** MySQL
- **Core Skills:** Data Structure and Algorithms, Problem Solving, OOP
- **Tools:** Git, GitHub, Postman

Projects

SN Shops Retail Dashboard

- Developed a full-stack **Retail Management System** using **React, Spring Boot, and MySQL** to streamline inventory, sales, and customer management.
- Designed scalable **RESTful APIs** following the **Controller–Service–Repository** layered architecture for efficient business operations.
- Implemented modules for **inventory management, customer records, sales tracking, and dashboard analytics**, providing real-time business insights.
- Optimized database interactions using **Spring Data JPA** and incorporated search, filtering, and CRUD operations for efficient data management.
- Validated API functionality using **Postman** and containerized the application with **Docker** to simplify deployment.

Banking Management System

- Developed a secure full-stack **Banking Management System** using **React, Spring Boot, and MySQL**, enabling users to perform essential banking operations through an intuitive web interface.
- Designed and implemented **RESTful APIs** following the **Controller–Service–Repository** layered architecture, ensuring modularity, maintainability, and separation of concerns.
- Implemented **JWT-based authentication** and **Role-Based Access Control (RBAC)** using **Spring Security** to secure protected endpoints and manage user authorization.
- Developed core banking functionalities including **account creation, deposits, withdrawals, fund transfers, and transaction history** with transactional consistency using **Spring Data JPA**.
- Validated and tested APIs using **Postman** and containerized the application with **Docker** to ensure consistent deployment across different environments.

Achievements

- Received recognition for securing a **Global Rank of 11268** in **TCS CodeVita Season 13**, showcasing exceptional **coding, problem-solving, and algorithmic programming** skills.
- Solved **400+** DSA problems(easy and medium) across LeetCode, GeeksforGeeks, and Coding Ninjas. .

Certifications

- **Software Testing – NPTEL** Jul–Oct 2025
- **Programming Essentials in C – Cisco Networking Academy** 2024
